July 2021 - November 2021

- Data structure and problem solving skills.
- Technical Stacks learnt: Java, HTML, CSS, JavaScript and React.
- Participated in 10-12 Coding contest organized by the platform.

## Projects

**Pig Game** | Newton School ([link](#))

December 2022 - December 2022

- There will be two players in this game. At the start of the game Player 1 will be the Current Player.
- **Roll the dice:** The current player has to roll the dice and then a random number will be generated. If current player gets any number other than 1 on the dice then that number will be added to the current score.
- **Hold:** If the current player clicks on Hold, then the Current Score will be added to the Total Score. When the active player clicks the Hold button then the total score is evaluated. If the Total Score  $\geq 100$  then the current player wins else the players are switched.
- Role: Developer | Tech Stack: Javascript, HTML, CSS .

**Indecision App** | Newton School ([link](#))

January 2022 - January 2022

- Indecision App is a simple React app to choose a random todo.
- Features: Put your life in the hands of a computer. What Should I Do? Your Options. Remove All. Please add an option to get started! Add Option.
